SCHOOL IS THE SECOND HOME FOR A CHILD

GlobalVox has created a one-stop-shop solution to ensure schools are compliant, confident and vigilant in managing visitors, including: students, faculty, staff, parents, vendors and contractors. LogBook360 provides preventive and protective measures to address school security and compliance for a safe learning environment.

GlobalVox has deep knowledge of visitor management systems and compliance for over 35 years. These solutions were created to serve the defense industry, classified locations and more, to ensure the highest level of visitor compliance is observed. This experience brings a lot of value to building the Visitor system and solving real pain points for schools.

Schools face a variety of internal and external security threats, including unauthorized visitors, registered sex offenders, disgruntled employees and malicious intruders. LogBook360 helps protect educational institutions through intelligent visitor management, automated watchlist screening and real-time security alerts. By identifying potentially high-risk individuals at entry, the platform empowers school administrators to make informed access decisions and maintain a safe and secure learning environment for students, staff and visitors.

SECURITY & SAFETY

The approach of security is “Outside-In” and the approach for safety is “Inside-Out”. LogBook360 empowers our team to implement DHS Zero Tolerance policies, ensuring controlled and auditable access to school facilities.

The Department of Homeland Security and other government agencies, law enforcement and communities nationwide, have redoubled their efforts and are poised to enhance school safety and security. These efforts have initiated due to multiple tragic events over the last several decades. Tragic events, like school shootings, demonstrate the ongoing need to prevent future school attacks.

STREAMLINED VISITOR PROCESS

DRIVEN BY YOUR NEEDS

APPOINTMENT BOOKING

Parents and visitors can schedule and book appointments directly with the teacher or faculty member according to their schedules. Teachers have the power to manage their schedules using LogBook360 plug-ins for Google, Outlook and iOS android calendars.

SELF-REGISTRATION

Save time for your school administration office and enable visitors to pre-register their details from their home or office prior to arriving at the school premises. Automated email notifications are sent to visitors and hosts, reducing the effort and overhead associated with managing visits and log books.

MANAGE WALK-IN VISITORS

Using the LogBook360 kiosk or the visitors own device (for a contactless approach), enable walk-in visitors to register their arrival, provide their details and send a request directly to the faculty member they wish to meet – all without manual intervention of the school administrator.

CHECK-IN AND CHECK-OUT WITH A QR CODE

Enable parents, guardians or visitors to check-in or check-out using a QR Code that is unique to their visit. QR codes are auto generated and sent via email to speed up the arrival process, removing the need for a physical log book to record the visitor arrival and departure times.

BADGE PRINTING

Issue badges to visitors automatically upon check-in depending on the type and category of the visitor. Customizable badges with permissible dates and times of visit, pictures, and color coding gives your faculty the confidence to know who is walking around the premise at any time.

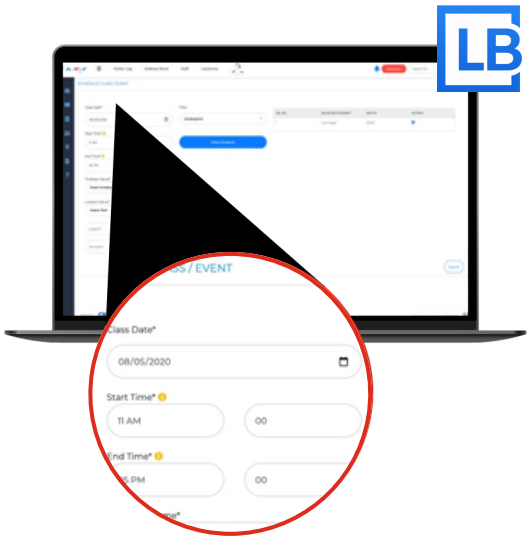

FEATURES

SCHEDULE AN EVENT OR CLASS

Create your event or class schedules and add the required visitors or students. Provide them with details of the location and the teacher or faculty member in an automated email, along with a QR code for them to register their attendance.

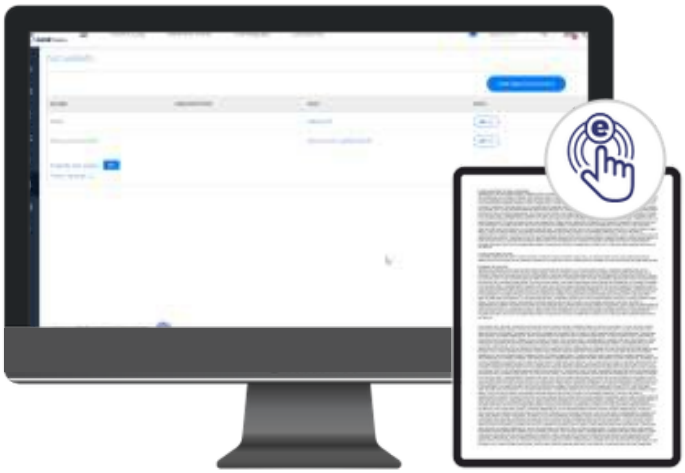

The above feature supports events such as

- Parent-teacher meetings
- School tours for prospective students and parents
- School music and sports events

DELIVERY & COURIER NOTIFICATIONS

Make delivery and courier visits quick and easy – reduce the time that they need to be on your premises waiting for a signature. Automated process flows within LogBook360 will send notifications.

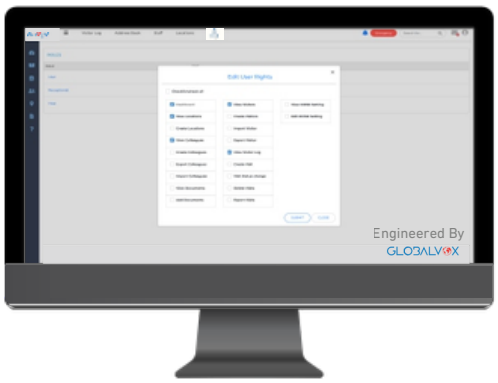

NDA & POLICY DOCUMENTS

Ensure visitors to your school understand the policies and procedures you have in place. Upload all the required policy documents into LogBook360 and request visitors submit a digital signature as part of their check-in or pre-registration process. In a few seconds, the NDAs are signed and electronically filed, reducing the carbon footprint.

CONTEXTUAL HELP / SELF HELP GUIDE

Remove the heavy reliance on user training with an intuitive self-help guide and contextual help to guide the system users through the processes and workflows. Enable a quicker turnaround time to transition from traditional processes to a next generation cutting-edge solution.

ROLE AND PERMISSION BASED ACCESS

Pre-defined system roles and permissions makes it easy to assign users the correct privileges to allow them to execute their tasks.

LOST & FOUND

From school bags and lunch boxes to books, stationery, ID cards, and personal belongings, LogBook360 simplifies lost and found management across the school campus. Staff can register found items with photos and location details, while students and authorized school personnel can report missing belongings and track their status until they are returned.

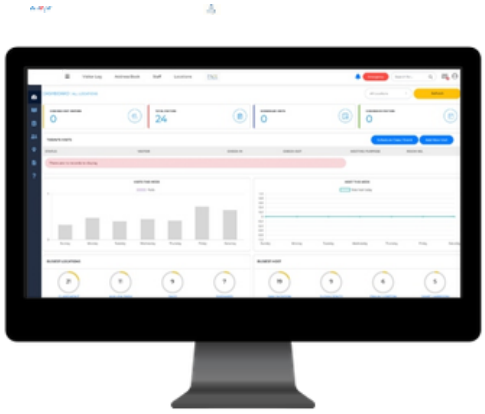

CONTRACTOR MANAGEMENT

Keep every contractor visit documented and controlled From maintenance workers and facility vendors to IT technicians and construction teams, LogBook360 helps schools manage third-party personnel entering school premises. Streamline contractor registration, document collection, approvals, safety acknowledgments, and temporary access permissions while maintaining a clear record of contractor visits

VOLUNTEER MANAGEMENT

Make school volunteering simple, organized, and accountable Parents, guardians, alumni, and community members play an important role in school activities. LogBook360 helps schools coordinate volunteers for field trips, classroom activities, sports events, cultural programs, fundraisers, and other school initiatives. Manage volunteer registration, approvals, assignments, attendance, and participation records through one centralized platform.

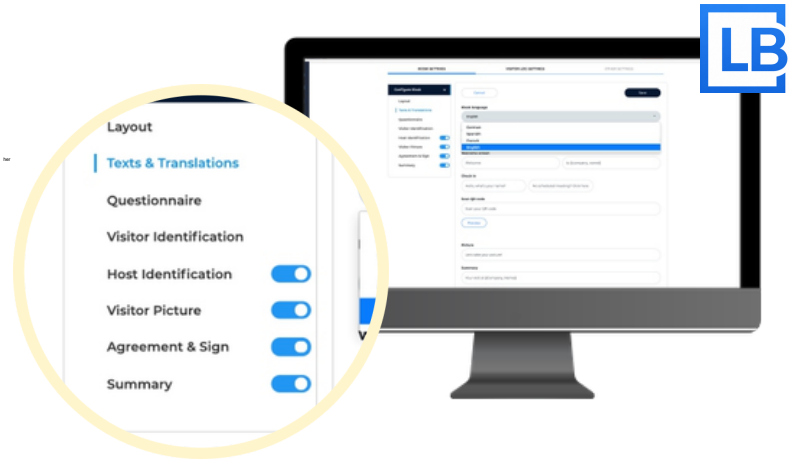

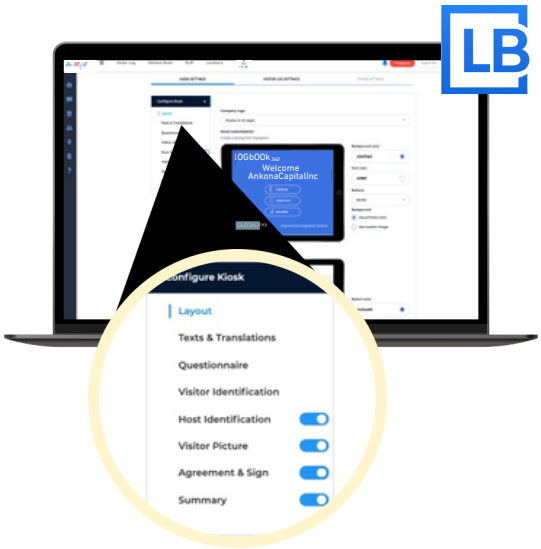

DASHBOARD AND REPORTING

A graphical dashboard display allows the administrators and hosts to see the visitors the are checked-in, checked-out or anticipated for the day. Enable forward planning for more ‘hands on deck’ if a large number of visitors are expected on any one day. Standard and customizable reporting adds depth to the ability to audit the data within LogBook360 in order to meet all compliance needs.

MULTI-LANGUAGE SUPPORT

English isn’t everyone’s first language. Allow visitors using the LogBook360 kiosk to select the language they want to use to register the details of their visit – making the overall process faster and less stressful.

CONFIGURABILITY

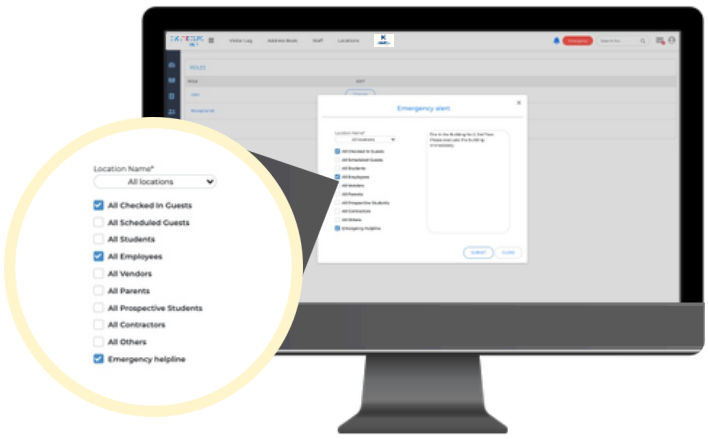

Welcome visitors your way. The LogBook360 kiosk is fully customizable, giving administrators the ability to upload a logo and wallpaper image as well as change the font and background colors to match your brand theme. Configure the kiosk screens based on your process flow needs. The system administrator also has the ability to configure the field labels of the LogBook360 application based on the terminology used within your school.

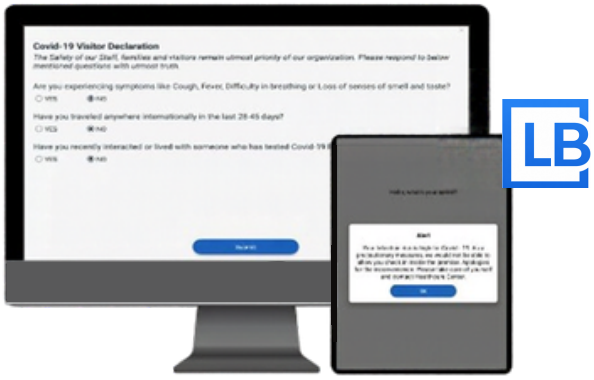

EMERGENCY MANAGEMENT

EMERGENCY ALERTS

Initiate a 911 call instantly with one-click using the quick access Emergency button within the LogBook360 application. Send an SMS or an auto-generated email to the Emergency Services and other First Responders to your school

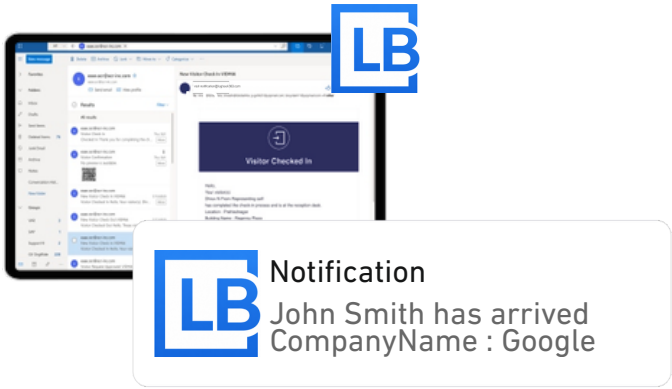

INCIDENT MANAGEMENT

Every school incident deserves attention

LogBook360 provides a centralized platform to record and manage safety, security, and operational incidents across the school. From student accidents and injuries to campus security concerns and property damage, authorized school personnel can document incident details, capture supporting evidence, notify relevant personnel, and track follow-up actions through closure.

NOTIFICATIONS

Broadcast messages about campus updates, policy changes, town halls, safety drills, and events. Segment audiences by building, floor, role, or visitor type to deliver the right information to the right groups quickly and effectively.

EVACUATION AND REUNIFICATION

Evacuations are uncertain events and result in a stressful time for faculty, visitors, students, parents, and guardians. Make the process of reuniting students with their legal parents or guardians a simple and pain-free process. Eliminate the time required to verify the parent or guardian collecting a child from school, while staying compliant.

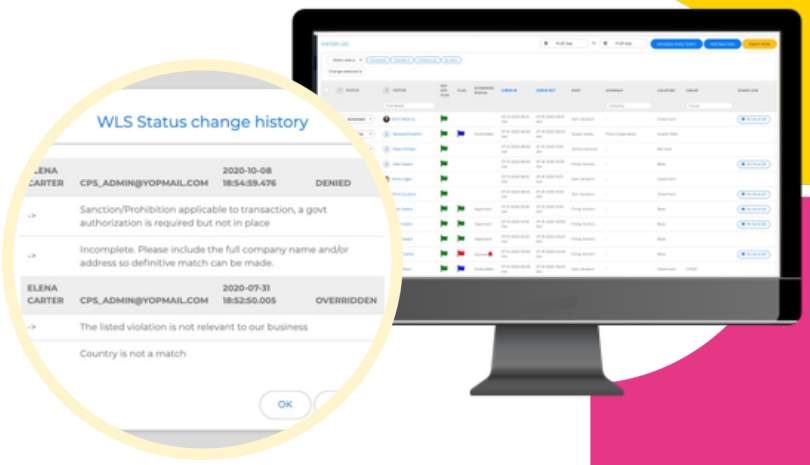

INTEGRATIONS

WATCHLIST & SEX OFFENDERS SCREENING

Know Your Visitor

Real-time screening and checking of visitors names against multiple watchlists, sex offenders lists, and custodian/guardianship databases. Any hits against these databases will immediately raise a flag, with automated notifications sent to the administrator for compliance, before allowing these visitors, guardians or parents onto your premises or taking unlawful custody of a child, thus complying with restraining orders from the judicial system.

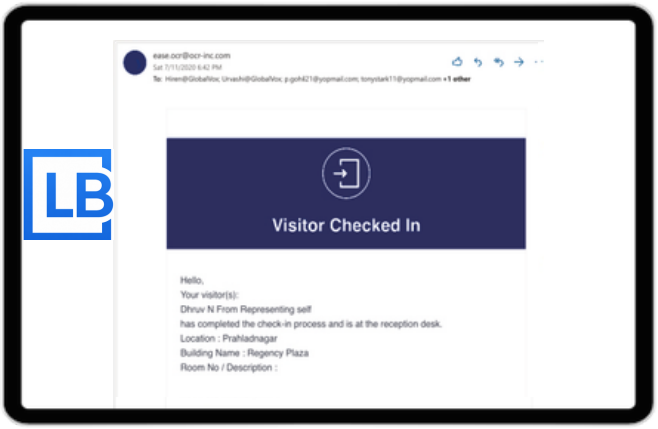

ACCESS CONTROL WITH FACIAL RECOGNITION

Fever Detection

In the difficult times of managing the current COVID-19 Pandemic and minimizing the spread of the virus, provide a quick temperature check to all students, faculty and visitors before allowing them access onto your premises. Integrate physical door access control to restrict access to open areas and configure the device to deny access to the premises without a mask.

EMAIL AND SMS NOTIFICATION

Receive quick automated notifications on arrival or departure of visitors via SMS or email. Hosts and visitors receive advance meeting notifications for scheduled meetings. Configure and customize the email content shared with visitors.

STUDENT MANAGEMENT SYSTEM/ SCHOOL ERP

Real-time integration with your school's ERP or Student Management System ensures that the correct data is shared for unified seamless workflow processes.

These integrations ensure data consistency between your existing ERP systems and LogBook360.

CONNECTED SYSTEMS. SMARTER SECURITY.

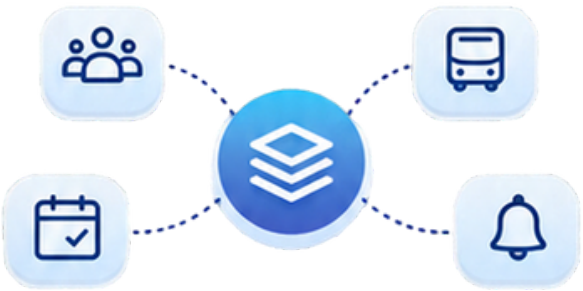

INTELLIGENT ACCESS AND SEAMLESS INTEGRATION FOR MODERN SCHOOLS.

LICENSE PLATE RECOGNITION

Smarter vehicle access without slowing down the gate LogBook360 integrates License Plate Recognition with corporate parking and access workflows. Registered vehicles can be associated with employees, visitors, contractors, or approved visits, giving security teams greater visibility into vehicle activity while reducing manual verification at entry and exit points.

CUSTOM INTEGRATION

Connect your systems. Simplify your operations. Every organization uses a different combination of business applications. LogBook360 supports custom integrations to connect visitor management and workplace workflows with existing enterprise systems. Synchronize relevant information, streamline data exchange, and reduce repetitive manual activities across departments.

ALBi ASSISTANT FOR CAMPUS VISITS

VOICE GUIDED, MULTILINGUAL SUPPORT AND INTELLIGENT NAVIGATION

Navigating a large campus can be challenging for students, parents, prospective applicants, researchers, and vendors. LogBook360's Agentic AI Assistant streamlines the entire visitor lifecycle through natural conversational interaction available on kiosks, mobile devices, or a visitor's own phone. This reduces staff workload and enhances the campus experience.

VOICE DRIVEN MULTI LINGUAL VISIT MANAGEMENT

Visitors can speak in their preferred language to schedule appointments, confirm details, complete check in, reschedule, or check out. Faculty and staff can review or manage visits through simple voice prompts.

SMART HOST ASSISTANCE

Facultyand departmental staff receive reminders, arrival alerts, delay notifications and daily summaries that help them stay organized and prepared.

INSTANT ANSWERS TO CAMPUS QUESTIONS

The assistant responds to common inquiries such as building hours, directions, safety information, event details, and host information. This reduces front desk volume and ensures consistent communication.

INTELLIGENT CAMPUS NAVIGATION

After a visit is confirmed, the AI Assistant provides real time turn by turn guidance from parking areas to academic buildings, labs, dorms, offices, event venues, and athletic facilities. Navigation is delivered through live location mapping on the visitor's phone.

INCLUSIVE AND ACCESSIBLE EXPERIENCE

Voice and multilanguage support assist visitors with visual impairments, those unfamiliar with campus, and guests who prefer hands free or translated guidance.

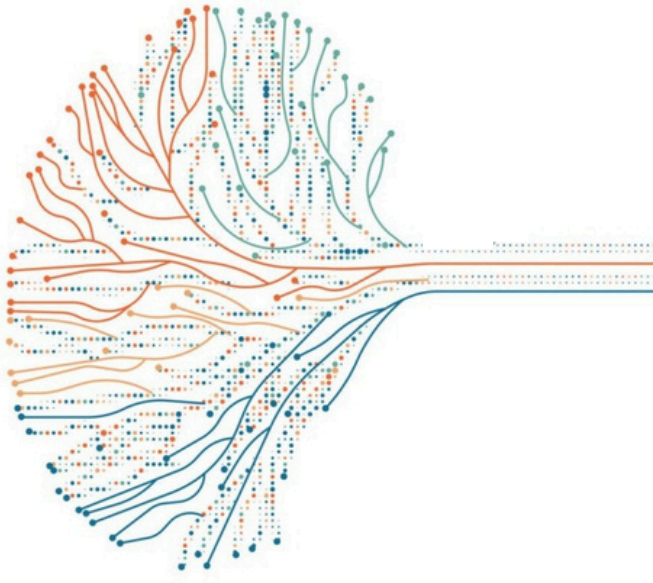

ALBi is LogBook360's intelligent voice and multi lingual AI assistant that guides hosts and visitors through the complete visit lifecycle. From scheduling and check in to navigation and real time support, aLbi modernizes and simplifies every interaction. The LogBook360 Mobile App brings hosts and visitors together in one intelligent platform. Role based access ensures every user sees exactly what they need while aLbi, the built in agentic assistant, guides the entire visit journey end to end.

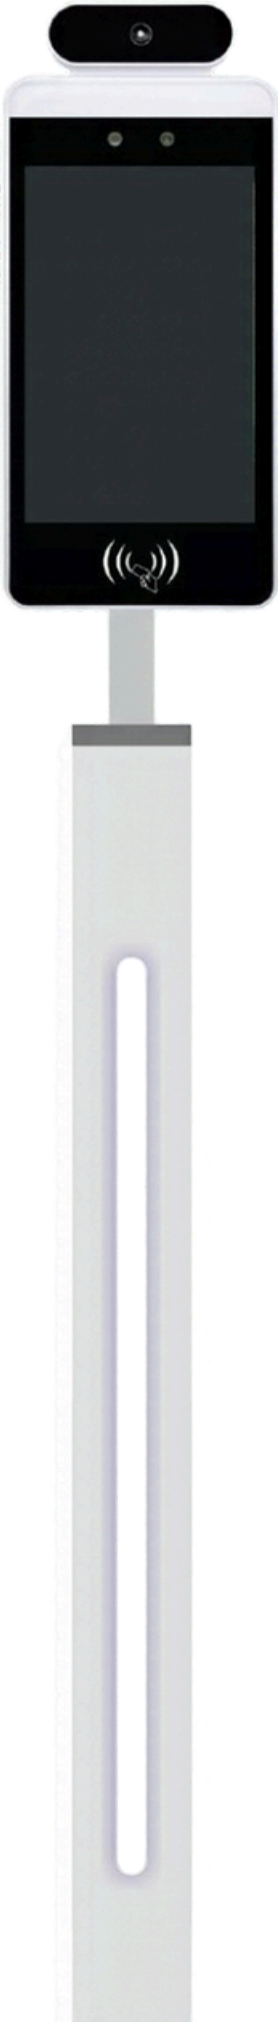

KEY CAPABILITIES

- Oneapp forhostsandvisitors with automatic privilege control
- ALBi voice and chat assistance for scheduling, check-in, navigation, and updates
- Real time traffic and weather insights with recommendations to reschedule or notify counterparts
- Smart alerts for arrival status, delays, parking, and building entry instructions
- Digital QR badge, touchless check-in, and multilingual support
- Meeting preparation assistance including agenda reminders and required documentation
- Suggestions for transportation modes and best routes to the meeting location
- Host tools for quick approvals, visitor tracking, and emergency notifications

ALBi ensures that every step is proactive, predictable, and seamless. Whether users are planning a visit, traveling to campus or office, or engaging in a meeting, the LogBook360 app keeps them informed, prepared, and connected at all times.

LogBook360 by GlobalVox combines advanced technology, strong privacy controls, and resident-first design to deliver a secure, scalable, and intuitive access control solution for residential communities. Whether managing daily visitors or responding to emergencies, LogBook360 helps communities operate safely, efficiently, and with complete peace of mind.
